800.338.9480 // MLKISHIGO.COM

© 2020 ML KISHIGO MFG., INC. ALL RIGHTS RESERVED. | HVW20-1

A wide-angle photograph of a construction site under a clear blue sky. In the foreground, two construction workers wearing high-visibility yellow-green shirts and white hard hats stand on a concrete path. One worker is carrying a long wooden beam on his shoulder. To the left, a long wall made of large, rectangular, textured concrete blocks runs across the frame. In the background, a modern glass-fronted building is visible, along with other buildings under construction. On the right side, a building's wooden frame is visible, surrounded by scaffolding. The overall scene depicts an active urban construction project.

ML KISHIGO®

2020 PRODUCT CATALOG

← PE

A large, dark industrial pipe runs horizontally across the lower half of the image. It features a central valve with a handwheel and a locking mechanism. The pipe is supported by concrete blocks. The background is a dark, textured wall with horizontal lines. The ground in the foreground is light-colored gravel with some small plants.

Quality first. Quality last. Quality always.

For over 45 years, we've made it our job to help you do yours. From day one we've dedicated ourselves to designing and manufacturing the best workwear in the industry. Every stitch and pocket, every design innovation, every thread checked, and rechecked ensuring wear that is dependable, comfortable, and visible. For us it all comes down to a simple word: quality.

WARNING: Cancer and Reproductive Harm
www.P65Warnings.ca.gov

Choose the right material for the right job.

Prismatic ~ Wet conditions

This material reflects back color and utilizes thousands of micro-prisms that are covered by a transparent film. Due to this protective layer, it performs exceptionally well in wet conditions and resists abrasion compared to glass bead.

Glass Bead ~ Warm conditions

Silver glass bead material is made of microscopic glass beads adhered to fabric, which creates a more flexible and lightweight reflective option. While ideal in many environments, especially warm ones, its largest drawback is that it loses reflectivity when wet and can abrade in rough environments.

Your garment's reflective material should stand out from the work environment.

Be seen in the best of class.

POWERED BY

HYPERKEWL

WARNING: Cancer and Reproductive Harm
www.P65Warnings.ca.gov

Brisk Cooling Technology

HyperKewl™ Evaporative Cooling products utilize a unique chemistry to achieve rapid absorption and stable water storage. The chemical formulation also creates enhanced evaporation. Our HyperKewl™ fabric combined with our three-layer design helps to cool the user while they stay dry!

Fully removable cooling pad.

Hook & loop for easy removal.

Evaporative Cooling Technology

- ∥ Specialized fabrics and fibers create an advanced water management system, called 'HyperKewl'.
- ∥ HyperKewl absorbs, stores and releases water within the multi-layered structure.
- ∥ The fabrics cool itself through evaporation and a chill effect is created.
- ∥ Users can expect the evaporative cooling fabric to provide temperatures that are up to 15-20% cooler than the ambient temperature.

1. Submerge in clean water for 1-2 minutes.
2. Wipe off excess water.
3. Re-activate as needed.

Your brand, our quality.

High-quality custom printing.

A name says a lot. Your name signifies who you are, what you stand for, and what you believe in. At ML Kishigo we believe in quality, and we can help you proudly display that name with high-quality, custom printing.

Our in-house graphic design and screen print facility services specialize in traditional screen printing, reflective graphic transfers and die-cut numbers and letters (reflective and non-reflective). We'll provide best practice solutions ensuring the optimum application for your specific fabric—including expensive fire-resistant materials—to ensure your garments come out right the first time.

Plus, our imprint technicians rigorously test everything to make sure your items get the correct temperature requirements, eliminating shrinkage, unusual rippling of the tape or anything else that might distort your garments. Take out the guesswork and let our experts handle all your printing and graphic needs.

An American tradition of excellence.

The team at ML Kishigo understands we're only successful if you are, that's why from day one we've committed to partnering, listening, and learning from our customers to ensure we are keeping up with the world's highest standards...yours.

It's that commitment to quality that has made ML Kishigo what it is today, an American born company committed to excellence, service, and of course, the production of the very best products in the business, after all, quality is not an act, it's a habit, and we've been dedicated to delivering you the very best for over 40 years.

We want to thank you, for your support - it's an honor to be your partner.
